E. M. CONKLIN Says: "I had been taking medicine of as good a doctor as we have in our councifics without any good result, from 15th August to 17th December. But seeing how nicely it operated on my brother, I got a bottle of Rhodes' Fever and Ague Cure, which effected a permanent cure, by using two-thirds of a bottle." S. M. CONKLIN was not here, but both the othr brothers say his case was the same as H. M's. I sold the medicine to both the same day, and the ty, and I might so specify, Yours with respect,

The above speaks for itself. Good proof as it s, it is of no better tenor than the vast numbe of like certificates I have already published, and the still greater amount that is continually pour ng in to me.

One thing more. Last year I had occasion to Caution the Public in these words:—
"I notice one firm who have taken one of my general circulars, substituted the name of their mostrum for my medicine, and then with brazen mpudence end their pamp hlet with the exclamation, "Let the proprietor of any other medi-cine say as much if he dares," &c.

A ND no wonder: As soon as the Rusina larned that the Allies had procured osma f Garner's gans, they "caven" — the consequence was, the Allies took possession of the city .-The march of improvement and civilization is

fast destroying those fine old hunting grounds

where dur forefathers delighted to "chase the

bounding doc." Game is becoming scarce, and the sports of the chase are seldom indulged in. A few of these hunting-grounds remain. Let aportsmen use them while they can. Robbers, burglars, incendiaries, and murderers lurk in almost every community. It is well to be prepared to defend yourself against their attacks.

When you think of these things, remember SILAS GARNER, Gunsmith. is still at the same place, in Strider's old Storeroom, and that he is prepared to fill all orders for FIRE ARMS of every description—Rifles, Shot-Guns, Carbines, or even '76 Muskets. He is also prepared to do all kinds of repairing. He invites particular attention to his Patent Breech Rifles-the greatest invention of the age. In exchange for his Guns he asks nothing at all-except the money. Call and see him. Pomeroy, May 23, 1854-tf.
